

Software Engineer

CABC are looking for a full time software engineer to join our team based in central Newbury customizing CRM software solutions. This is key role in our team and is in environment of rapid change.... you will not be on the same project for very long!

You should already have experience of software development using Microsoft Visual Studio as you will be working on a wide range of projects using VB, COM, XML, .net, SQL databases using a variety of reporting tools. Experience with other tools such as SharePoint, java script and c# would be an advantage as this is an all round programming role and we use the tools each job demands!

Working at the direction of the Managing Director you will be expected to demonstrate an ability organise your own work and maintain high quality standards in your completed projects. This job demands an organised self starter who can take projects from concept to deliverable.

If you enjoy programming challenges this job has plenty and will provide the opportunity to apply and develop your programming skills on a wide variety of short projects (most of our projects are less than two weeks) for our CRM customers. The successful candidate will be willing to turn their hand to any problem and will be able to do their own background research. We encourage staff to undertake relevant Microsoft Certification exams and provide self paced training tools to enable you to expand you knowledge.

You will ideally have an IT related academic qualification to degree level or a similar level qualification and at least 1 year of relevant programming experience.

Typical project work includes:

- Application Integration
- Data conversion
- CABC Add-on product development
- SQL Reports
- Business Objects Crystal Reports
- Web service development
- Java Script development
- Project estimation
- Requirements document creation
- Solution support

We use every version of Visual Studio ! Visual Basic 6 through to VS2008 (Don't worry if you've not used them all - you just have to be prepared to use the old and new as the project demands).

This job is based at our offices in Newbury and may occasionally require visits to clients around the country. CABC are a Maximzier and Microsoft Dynamics Business Partner to learn more about CABC visit <http://www.cabc.co.uk> and <http://www.msCRM-cabc.co.uk> We sell a range of CRM add-on product to clients who are world-wide.

The company employment package includes: Up to 25 days annual leave (after qualifying period) , Stakeholder Pension Scheme, Bonus Scheme, MCP recognition awards.
